

SILICONE THICKENING AGENT CS

- Chemical Composition
 - High molecular weight polymer
- Technical Specification
 - ☆ Appearance : pale yellow translucent or transparent liquid
 - ☆ Ionicity : nonionic
 - ☆ pH value : 6~7
 - ☆ Compatibility : compatible with cationic, anionic and nonionic auxiliaries
- Properties
 - ☆ Good thickening effect to silicone emulsion be stable in viscosity
 - ☆ Thickening silicone emulsion can be stable in viscosity
- Field of Application
 - Applied to the thickening finishing of silicon emulsion
- Application
 - ☆ Add suitable amount of CS to silicone emulsion according to the required viscosity, suggested dosage 0.5~1%
- Storage and Packing
 - Shelf life : 6 months when store in cool, dry and shaded warehouse.
 - Packing : 50kg plastic drum

○ Compatibility of other auxiliaries and process need to be checked before application
